GREAT SPEECH IN THE SENATE

Delivered by Senator Rayner
In Favor of Hepburn Bill

FORAKER'S GREAT SPEECH

IS PRAISED BUT HIS FAULTY ARGUMENTS ARE REFUTED

Maryland Statesman Believes That
the Pending Bill Is Satisfactory
In Present Form.

Washington, March 14.—"I have never yet known the people in the pursuit of justice to sign a treaty of capitulation. I have never known a great principle to proclaim an ultimate surrender. I have never yet seen the day, though the cause may be retarded and the hour may be postponed, when the lines were clearly drawn between monopoly and its victims, when the right was on the one side and wrong was on the other, however ominous the prospect and however desperate the encounter, that the privileged class of favoritism and oppression did not at the very first exposure and attack retreat before the allied forces of the people in the halls of legislation."

With the above peroration Senator Rayner, (Dem., Md.), this afternoon concluded one of the most powerful speeches yet delivered on the floor of the senate in favor of governmental rate regulation for interstate traffic. He expressed his almost complete satisfaction with the Hepburn bill as it passed the house, defining his exact attitude in these words:

"I am in favor of an amendment to the bill vesting in the court the right to try the question of unjust compensation with restraining orders abolished and with the further right, if possible, to let the court fix the rate if it reverses the order of the commission and if we cannot get these changes I prefer to take the bill as it is, rather than mutilate it or destroy its efficiency."

He said he had no fear or anxiety that the commission would perpetrate any injustice under the provisions of the measure and felt sure the power of the courts is ample under its terms to protect the property of the carriers. He took an advanced stand upon the constitutional powers of the courts. "If the senate should take a different view," he declared, "and invest the courts, in addition to the inher-

ent power that they now possess, to protect the railroads from confiscation, with the further power to review the proceedings of the commission as to the reasonableness or justness of its orders, then I shall offer an amendment that the courts complete the work that is before them and that they do not engage in the idle process of sending cases back again without any effective order or legal suggestion as to its future action."

The senator took emphatic issue with Senator Foraker upon his contention that congress had not the right to make rates through a commission. "But I must say," he continued, "I have never known a hopeless cause to be managed with such consummate and matchless skill."

TREASURER BLISS CALLS UPON JEROME

New York, March 14.—Cornelius N. Bliss, treasurer of the Republican National committee today called and was closeted for an hour with District Attorney Jerome. Mr. Jerome declined to state whether Bliss called at his request or not. Bliss is the official to whom prominent life insurance officials testified before the Armstrong committee, that they paid large sums of money for political purposes in the McKinley and Roosevelt campaigns.

Russian Socialist Proclamation.

Warsaw, March 14.—Socialists have created a stir by the issuance of the following proclamation:

"We have no faith in the government or the duma. The revolutionists must fight until their aims have been reached. A merciless fight will be renewed in the Spring and the struggle must be ended and won before the glorious first of May."

Strike Follows Mine Disaster.

Paris, March 14.—Following the great mine disaster at Courrières on Saturday, 5000 miners in the neighborhood have declared a strike. Other miners threaten to join the strike movement.

Minnesota Elections.

St. Paul, March 14.—Village elections were held throughout Minnesota and generally passed off quietly. Party lines were not drawn and in many cases no offices were contested for. A peculiar situation resulted from the election in South Stillwater. For the office of trustee, one candidate received 102 votes and his opponent 101. As the records showed only 202 voters and the extra ballot could not be accounted for the candidate elected has not yet been determined.

Panic Aboard an Ocean Liner.

New York, March 14.—A terrifying experience at sea was reported by the officers of the French line steamer Hudson. During a storm which swept the Atlantic coast last Friday afternoon and evening the 336 steerage passengers on the steamer became panic stricken and were quieted only after the captain and first officer had threatened with revolver and knife. Captain Juham said that the storm while it lasted was the most severe he had ever seen in his thirty years' experience at sea.

McGOVERN AND NELSON FIGHT FOR BIG MONEY THIS EVENING

New York, March 14.—The largest amount of money ever fought for by two pugilists in Philadelphia will be that which Terry McGovern and Battling Nelson will contest for in their six-round battle in the ring of the National Athletic club of the Quaker City tonight. Up to date over \$20,000 worth of tickets has been sold and it is expected that by the time the fighters enter the ring the receipts will easily amount to \$23,000. As Nelson is to get 45 per cent of the gross receipts, his end, figuring on the above receipts, would total up \$10,250, while McGovern will receive about \$5,750.

McGovern eased up in his training still more yesterday and from now on will only engage in light work in order to keep within the 133-pound limit. At last reports McGovern scaled 128 1/2 pounds, with Nelson tipping the beam at 132. While the lightweight title is held by Nelson, McGovern will be regarded as the champion should he succeed in knocking the Dane out. As no decisions are rendered in Philadelphia, Nelson will retain the title unless he is knocked out.

FACTS ABOUT TONIGHT'S FIGHT.

Principals—Battling Nelson, of Chicago, vs. Terry McGovern, of Brooklyn.

Weight—133 pounds, ringside.

Number of rounds—Six, with no decision, if bout goes limit.

Probably weight of men when they enter ring—Nelson, 133 pounds; McGovern, 130 pounds.

Rules—Marquis of Queensbury.

Place of contest—National A. C. of Philadelphia.

Title at stake—None.

Purse—Nelson, 40 per cent of gross receipts; McGovern, 35 per cent, and club the remaining 25 per cent. Value of seating capacity of club \$18,000, now almost entirely sold out.

McGovern's best battles fought since he lost to Corbett—Stopped Eddie Hanlon at Philadelphia, 4 rounds; stopped Tommy Murphy at Philadelphia, 1 round; won from Jimmy Briggs at Boston, 15 rounds.

Nelson's best battles—Stopped Young Corbett in 10 and 9 rounds, who had beaten McGovern in 2 and 11 rounds; knocked out Jimmy Britt in 19 rounds; won from Aurelio Herrera, 20 rounds; stopped Eddie Hanlon, 19 rounds.

SPANISH SOVEREIGN, HIS BRIDE-ELECT AND AN AUTOMOBILE WHICH FIGURED IN HIS COURTSHIP.

Princess Ina of Dattenberg

King Alfonso, the young monarch of Spain, will soon take for his royal bride, Princess Ina of Dattenberg, who comes from one of the most ancient lines in Europe.

The future queen was born and reared a strict adherent to the tenets of the Anglican church, but last week with impressive ceremony she formally renounced her faith and embraced that of the Roman Catholic church.

The royal nuptials will be solemnized on June 2, and parliament has voted \$50,000 per year for the future queen's maintenance. After her marriage she will be officially known as Victoria Eugenie.

It is current gossip at European courts that after the marriage, King Edward VII, who has been styled the social as well as political arbiter of Europe, will exercise a watchful care over the young couple. This is but natural, as the coming Castilian queen is a niece of England's king, being a daughter of Princess Beatrice of Dattenberg, the latter, a daughter of the late Queen Victoria.

It is said that the coming royal marriage is one of pure love, without any of the sordid ingredients of political or financial aggrandizement entering into the nuptial contract.

King Alfonso is an enthusiastic

automobilist and his fiancée also enjoys the sport with evident relish. Since the betrothal the couple have been frequently together, on spins about the country in the king's motor, which is a recently acquired touring car.

MORE PROBING BY SENATE COMMITTEE AT CINCINNATI

More Judges May be Called, More
Turnpike Testimony and
Franchises to be Investigated.

Cincinnati, March 14.—The attorneys for the Drake investigating committee were busy all day Tuesday in preparation for the sessions next Friday and Saturday. While the attorneys would not talk, there was a report that some more judges were to be called. Whether or not it was to be along the line of the testimony of the Circuit court judges could not be learned. It was also asserted by one who claimed to know that there would soon be a probe into some franchises, for it is said that there will be startling developments when the witnesses are called to the stand.

There is certain to be some more testimony as to turnpikes, and then Mr. Dolle is to be called to tell what he desires regarding his connection with these deals.

SPOONER MAY SUCCEED TAFT

Washington, March 14.—Secretary Taft and Charles P. Taft of Cincinnati, with political friends, are holding a conference in the home of their brother, Harry Taft, in New York today, to consider the advisability of accepting a seat on the Supreme court bench offered him by President Roosevelt. Should he accept, Senator Spooner is spoken of as Taft's successor. Another name, that of Col. John J. McCook of the famous "Fighting McCook" family, is mentioned as Taft's successor.

Four workmen were frightfully burned in an explosion of hot metal at the plant of the National Malleable Castings company, Cleveland, Ohio. Three of them will probably die.

REBEL LEADER WAS BEHEADED

Hong Kong, March 14.—Chinese authorities have extrajudicially beheaded Kwangsi, the rebel leader, and three other men implicated in the attack made on the home of Dr. Andrew Beattie, the American missionary at Fui, February 7. The missionaries were bound by the robbers, and their clothes, watches and silver valued at \$1,000, were stolen.

EXTRA SESSION OF LEGISLATURE TO TAX WHISKY

Called by Governor Beckham of Kentucky Who Says He Regrets the Necessity.

Frankfort, Ky., March 14.—Governor Beckham issued a call at midnight for an extra session of the legislature to impose a tax on rectifiers of whisky. The extra session is to begin today at noon. The regular session closed last night. In this call the governor says: "I regret the necessity for this call, but my reasons for it are so apparent to every member of the general assembly that it is hardly necessary to explain them. You have just passed through a long and bitter contest over the passage of a revenue bill and in that struggle the true mass of the people whose servants we are, have not received all to which they are justly entitled. In the revenue bill you have just passed in your regular session this one question has been the stumbling block and has well nigh defeated all sensible legislation."

ELECTIONS IN RUSSIA.

St. Petersburg, March 14.—The elections for the national Duma are proceeding slowly. The people are generally overawed and afraid to vote. Many who are elected have already been arrested and sent to Siberia.

LEGISLATURE MAY ADJOURN ON APRIL 2

It is Claimed That Lobbyists Have Blocked the Enactment of Laws Which People Voted For.

Columbus, March 14.—The adjournment question seems to have taken precedence over all other in the minds of a majority of the members of the legislature. The House Democratic floor leader, Yeat, is the author of a resolution, now pending, fixing April 2 as the day of adjournment.

Political observers say this action was taken because the lobbyists, who they claim, have blocked the enactment of laws which the people voted for last fall, and which they are still demanding. The lobby is more numerous and powerful at this very time than before during this session. The legislature may adjourn April 2, and leave a clean record, but there is a sinister significance in the action, the support which the proposition has from without the legislative hall, is for only one important measure, the tax on railroads fare bill, has been passed.

FIRE DAMAGES FLAGSHIP.

Manila, March 14.—A fire started today on board the battleship Ohio, lying in this harbor, it was put out after damage amounting to about \$4,000 had been caused. The Ohio is the flagship of Rear Admiral Train.

DEPEW QUITE SICK

Washington, March 14.—Senator Depew, variously reported as different ailments, is in reality in his home in New York city and is very sick. Senator Platt, who made this statement this morning, says Depew is receiving no callers. Platt understands that Depew will not return to Washington this session, and denies the rumor that Depew and his wife have separated.

LONGWORTH'S WILL BE KING'S GUESTS

London, March 14.—The Chronicle says that Mr. and Mrs. Nicholas Longworth, when they visit London in June, will stay in Buckingham palace as the guests of King Edward. They will also visit the Duke and Duchess of Marlborough, the Duke and Duchess of Devonshire, and Ambassador and Mrs. Reid.

CHANGE OF VENUE WAS GRANTED IN MARCUM CASE

Jackson, Ky., March 14.—Special Judge J. L. Downey entered an order transferring all five of the Marcum murder cases to Lee county and granted the defendants bail in the sum of \$10,000. The defendants are ex-Congressman James H. Hays, Sheriff Ed Callahan, Attorney R. F. French, John Smith and John Abner. They are charged with being accessories to the killing of Marcum. Curtis Jett was convicted of being the principal and given a life sentence. The cases of the five men charged with being accessories will be tried at Louisville in the immediate future.

MORE SENSATION DUE FROM MIZNER

Chicago, March 14.—Mrs. Wilson Mizner, Charles T. Yerkes's widow, yesterday disclosed knowledge of her young husband's whereabouts. Reports were out yesterday that he was arranging to come to Chicago Friday, and that he would be a sensation.

It was denied that the suit was directly based on his marriage to the traction millionaire's widow, but it was learned that the amount will be large and the grounds startling.

DIFFICULTIES OF OFFICIALS

Will Not Endanger the Success of Miner's Fight

DOLAN WAS NOT AT MEETING

THE MEETING OF THE EXECUTIVE BOARD WAS HELD TUESDAY

And the Big Convention Will Open on Thursday Morning at Indianapolis.

Indianapolis, March 14.—There is to be no difficulty between President John Mitchell and Vice President Lewis to endanger the successful outcome of the fight the United Mine Workers of America are now waging with the mine operators.

Friends of the union feared that in the heat of the present crisis former troubles between the two leading officials of the organization might break out. It can today be authoritatively stated that peace has been declared and that under no circumstances will the personal matters between the two officials figure in the coming convention. The first meeting of the miners' national executive board in connection with the reconvened session opened Tuesday morning at national headquarters in the State Life building. President Mitchell this morning stated that this executive meeting was simply to take questions which have come up since the regular convention adjourned and was not for the purpose of mulling out a course for the convention to pursue.

President Mitchell was asked what would be done with the Ryan resolution passed in regular convention, which provides that no agreements shall be signed unless all districts under control of the national miners organization are included in the contract. "I cannot tell any more about that than you can," said Mitchell.

A report that the complexion of the convention might be affected by the number of proxies given by the smaller unions not financially able to send special delegates again to Indianapolis was discounted by President Mitchell.

"Many of these delegates are instructed," he said, "and where specific instructions are not given, the delegates are allowed much discretion."

The fact that Patrick Dolan, of the Western Pennsylvania district, has not arrived at headquarters when the executive committee went into session Wednesday, caused comment about the corridors. Dolan was expected in Indianapolis early today. Several of the board members, including Falton, Gilder and Daugherty of the anthracite district, Huston of the black coal field, and Franklin and McEloughlin of the bituminous field have been here since Tuesday.

Vice President Lewis, who has been ill at his home in Bridgeport, Ohio, is much improved and is here to take his part in the convention. With him, from Ohio, came President W. H. Harkins, and Vice President Dennis Sullivan, of the Sixth district.

For the first time in years the big miners' convention which begins Thursday at 10 a. m. will not be held in its usual meeting place, Tomlinson Hall. This hall is always reserved a year ahead for the scheduled miners' meetings, but is in use by a trained horse show. The miners will meet at the Auditorium of the German house, the leading German club of Indianapolis.

NO WORD FROM MARSHAL'S POSSE

Vinita, I. T., March 14.—Up to nine o'clock last night no word had been received from United States Marshal Dwyer, or any of his posse, who are pursuing the Wickliffe gang of Cherokees outlaws. The night was dark and rain was falling and a courier would not be able to make his way from the Night Hawk country. The chase may last several days before the Indians are overtaken.

DOW TAX INCREASED TO \$1000 BY BILL WHICH PASSED HOUSE

Alken Measure Receives Safe Majority in the Lower Branch--Senate Defeats Bill Prohibiting Sale of Liquor in Dance Halls and Skating Rinks.

Columbus, O., March 14.—The senate defeated the measure of Representative Roberts prohibiting the sale of liquor in dance halls or skating rinks or in close proximity thereto, and the senate bill of Mr. Howe creating state civil service commission and providing for classification of minor employees in all departments and institutions and county offices.

Two bills by Senator Harper passed the senate. One provides penalties for refusal of insurance company to produce books in cases where violation of the law is charged, and the other provides for the appointment of insurance wardens, whose duty it shall be to investigate infractions of the insurance laws.

Bills passed by the senate: H. B. Mr. Minter, providing that railroads shall equip their cars with automatic couplers; H. B. Mr. Wilson, to provide for the better collection of the per capita tax on dogs; S. B. Mr. Hayes, so amending the law relating to the collection of information relative to ac-

cidents as to forbid the use of such reports as evidence in suits for damages; S. B. Mr. Berry, creating the several townships in the state into separate road districts for improving and repairing the roadways, and authorizing the levying of a tax for that purpose; S. B. Mr. Duvall, fixing a minimum salary of \$40 a month for country school teachers.

Bills introduced in the senate: Mr. Williams, to take from corporations the power to own stocks in other corporations; Mr. Atwell, authorizing the voters of a township on a petition of 25 per cent to decide whether they shall continue a levy for that purpose; Mr. Ward, giving insurance companies the right to loan money on leaseholds; Mr. Howe, amending the state depositary law so as to compel competitive bidding by banks for funds of the state, confining security for funds to United States, county and city bonds to full amount of money borrowed and cutting off per cent. allowed state treasurer.

Increases Dow Tax.
The house handily passed Representative Alken's bill to increase the Dow tax from \$550 to \$1,000. A spirited debate preceded the vote, which was: For the bill, 47 Republicans, 19 Democrats; against the bill, 10 Republicans, 12 Democrats, 34 Democrats. A compromise at \$500 had been offered, but neither the advocates of temperance nor their opponents would touch it. Both sides joined in defeating this amendment, the supporters of the bill because they believed a \$500 tax would be merely a revenue measure and would not put any saloons out of business; the opponents of the bill because they were confident they could beat it in its most radical form, while they were afraid it would pass if cut to \$500. The race riots at Springfield were used as arguments for a tax high enough to stamp out low dives.

The house passed the bill of Representative Freiner, giving the attorney general full power to enforce and requiring him to enforce the long and short haul section of railroad statutes. Bills passed by the house: H. B. Mr. Braun, to conform the Ohio pharmacy laws to those of surrounding states; H. B. Mr. McGinnis, authorizing the employment of a library organizer; H. B. Mr. Stockwell, to establish a legislative reference department, whose bills may be drafted for members by experts; H. B. Mr. Shankland, authorizing one mill levy by township trustees for township hospital maintained by private association not for profit; H. B. Mr. Hill of Columbiana, to prevent explosion of dust-charged air in coal mines by sprinkling the entrances with water; H. B. Mr. Ashbrook, fixing the standard weight of crushed stone at 3,000 pounds a yard; H. B. Mr. Crawford, to require one year's experience before a coal miner may have control of a mine room; H. B. Mr. Elson, requiring a crew of six for through freight trains of over 50 cars.

MUST SERVE FULL TERM

Decided the Supreme Court in Case of Conyer Released From Pen to Clerical Error.

Columbus, March 11.—The Supreme court Tuesday decided that Ira Ballus, who, through a clerical error, was released six months before his time expired, but was afterward returned to the penitentiary, will have to serve his full term. The decision of the lower courts, in refusing to grant a writ of habeas corpus was affirmed. By this action of the court new law is established, for if a convict, through some book or error, would gain his freedom other than by parole or pardon, he may be made to serve full term.

Adjusted Insane.
On affidavit of H. A. Brown, the certificate of Dr. C. P. King and the testimony of a number of witnesses, Green O. Loughman, a well known young man of Hopewell township, this county, was adjudged Insane by Probate Judge Brister Wednesday, and was taken over to Columbus the same afternoon and turned over to the officials of the State Hospital.

Extra Session Called.
Frankfort, Ky., March 14.—An extra session of the legislature was called by the governor, to begin Wednesday, to levy a rectifier's tax on account of the failure to make any change in the law in the revenue bill.

SUIT FOR BOARD AND LODGING

IN THE SUM OF \$1200 FILED IN COMMON PLEAS COURT.

Motion Filed in Homestead Building Association Case—Answer in Divorce Case.

Julia Smith has commenced suit in the Common Pleas court against Jennie Cole. The plaintiff says that on the 30th day of September, 1900, the defendant was indebted to James B. Smith in the sum of \$254 for boarding and lodging furnished the defendant for 104 weeks, and that no part of the same has been paid. The plaintiff says that for a valuable consideration James B. Smith sold and assigned to him the claim against the defendant, and that there is now owing to him from Jennie Cole \$341 with interest thereon from the 30th of September, 1904. The parties reside in Granville township.

The Bevard Case.
The Advocate's statement of Tuesday that the trial of Levi Bevard may not be called before the latter part of May or first of June, seems to be misinterpreted. It is not believed that the case will be further postponed on account of the absence of Dr. Legge, the ex-Coroner. The case will doubtless be called on the first day of the next term, which begins April 3, and the court, of course, will determine the day for trial.

Another Suit for Board.
In the Court of Common Pleas Samuel Alsapach of Granville township, has commenced suit against Barnhart Alsapach. He says that from the 30th day of January, 1900, the defendant, Barnhart Alsapach, used and occupied as his lodgings certain furnished rooms in plaintiff's dwelling house, and was furnished with food, attendance and other necessities to the amount of \$1200, which he has not paid, and for which he asks judgment. J. Howard Jones, attorney.

Motion Filed.
In the case of Edward Crayton, trustee, etc., against the Homestead Building and Savings company and others, the defendant has filed a motion in the Common Pleas court to strike from plaintiff's petition certain parts of the petition set forth for the reason that the same are each and all incompetent and irrelevant and immaterial. Kibler & Montgomery, attorneys for the defendants.

To Make More Definite.
In the case of Samuel A. Smith vs. Barnhart Alsapach, the defendant has filed a motion in the Common Pleas court wherein he moves the court to compel the plaintiff to make his petition more definite and certain, by setting out therein, what food, what attendance and what other necessities, if any, the plaintiff furnished the defendant and the time or times when the same were severally furnished if furnished at all. Hunter & Hunter attorneys for the defendant.

Answer and Cross Petition.
In the case of William T. Willey against O. E. Miller and others, Frank Glover, one of the defendants, has filed his answer and cross petition to the petition and supplemental petition in interpleader. Hunter & Hunter, attorneys for Frank Glover.

Asks for \$400.
In the case of William T. Willey against O. E. Miller and others Harve Maharg and John Maharg have filed their answer to the petition in interpleader filed by the plaintiff, wherein they pray the court that upon the final distribution of the moneys it may adjudge and decree to them \$400 with interest and costs, the same being the amount due on a judgment, and for all other and proper relief they may be entitled to either in law or equity.

Asks that Petition be Dismissed.
In the case of Lucy Irwin against Allen T. Irwin, the defendant has filed her answer to the supplemental petition of the plaintiff, and asks that the same be dismissed. He admits that he is and has for a long time been employed as a freight conductor by the B. & O. railroad company; that prior to the 17th of February, 1906, she and defendant each owned the undivided one-half of certain real estate in Newark; that the property was sold by the sheriff in a suit to foreclose a mortgage thereon; that the purchase money from this sale far exceeds the amount due on the mortgage, that all debts and costs have been paid, and that there remains in the hands of the sheriff about \$2000 for distribution. He denies all the other allegations. Smythe & Smythe attorneys for defendant.

Adjusted Insane.
On affidavit of H. A. Brown, the certificate of Dr. C. P. King and the testimony of a number of witnesses, Green O. Loughman, a well known young man of Hopewell township, this county, was adjudged Insane by Probate Judge Brister Wednesday, and was taken over to Columbus the same afternoon and turned over to the officials of the State Hospital.

Extra Session Called.
Frankfort, Ky., March 14.—An extra session of the legislature was called by the governor, to begin Wednesday, to levy a rectifier's tax on account of the failure to make any change in the law in the revenue bill.

Big reduction on all winter overcoats at Geo. Hermann's. 14-3t

For the past two weeks Mr. Loughman has been suffering with a severe attack of acute dementia, and has been very violent, it requiring two men to hold him at times. He is a single man, aged about 21 years, and on a previous occasion was in a sanitarium at Columbus for about four months.

Fined for Slander.
In the case of the State of Ohio against Joseph Curakres, charged with slandering Guxas Tenez, the defendant was fined \$5 and costs by Squire Lake Wednesday.

CAUCUS

OF DEMOCRATIC SENATORS REJECT HERRICK'S APPOINTMENTS

To be Acted Upon by Senate Thursday—Governor Pattison Will Then Make Appointments.

Columbus, March 14.—Conforming to the decision reached before it assembled, the Democratic senatorial caucus yesterday officially decided to reject all of the recess appointments of Governor Herrick. All of the Democratic members were present save Bohmer and Vanover, but the latter gave their approval to what had been done. Senator James Williams of Cleveland, offered a motion to relieve the various committees of the nominations. This was carried on a viva voce vote. It was then ordered that the matter of confirmation or rejection be made a special order for Thursday.

It is understood that Governor Pattison will renominate some of those who will, on Thursday, be rejected. It is known that he has had in view the retention of several of those upon the list. Those who will be affected by the vote on Thursday are the following:

Supervisor of Public Printing—Mark Slater, Montgomery.
Superintendent of Insurance—A. I. Vorys.
Commissioner of Railroads—James C. Morris, Mahoning.

Commissioner of Labor Statistics—Michael D. Ratchford, Stark.

REAL ESTATE NEWS OF CITY

DEMAND FOR BUSINESS LOCATIONS MOST ENCOURAGING TO CONTRACTORS.

New Electrical Company Has Opened in the Speer & Kellenberger Building.

The demand for business locations in the city is indeed encouraging for the contractors and real estate dealers. It has reached a point where it is almost impossible to secure a business room within a reasonable distance from the square.

One firm is known to have offered a bonus of \$50 besides a fairly high rental, for a location in this city, not far from the square.

In this connection, Contractor Samuel Woolway, who recently returned from Chicago, where he has been spending the winter, stated that in that city a certain firm recently offered a bonus of \$50,000 for a lease on any business property within a certain district on State street.

The demand for locations in Newark is growing constantly with the approach of the spring season, and scarcely a week passes without an inquiry as to business locations.

In this connection it may be said that there are a number of manufacturing industries which are considering locating in this city. Newark is growing so rapidly in other respects that it seems that if Zanesville can land an automobile factory Mr. Vernon, large concerns manufacturing glassware, overalls, and other wares, that at the present rate of growth, this city should be one of 50,000 population in five years as well as to follow smaller places.

A. W. Claggett, the tea man, recently purchased the last of the group of houses on Clinton street, belonging to the Newark Real Estate and Imp. company, for a consideration of \$3,000. As an example of the rapid increase in the value of Newark realty, it may be stated that this is the third time that this property has been sold by the company within the past four years and each time at a much more advanced price.

The Newark Real Estate and Imp. company sold one of its properties in the Wehrle addition to C. W. McQuary of this city, recently, for a consideration of \$1,800.

Among the many new houses being built for the coming spring and summer, is an attractive one which is being erected by the Newark Real Estate and Imp. company on Evans street.

The Newark Electrical company, a new firm for the city composed of M. L. Trout and George Fuller of Columbus, both experienced electrical men, opened its place of business in the Kellenberger and Speer building in South Second street, today.

Messrs. Trout & Fuller have been for some time with the Electrical Supply and Construction company of Columbus, and have had years of experience in their line of work. This firm recently secured the contract for the new ten story structure to be erected by the Newark Trust company.

The store has been neatly fitted out and will carry a full line of the most complete and up-to-date electrical appliances.

Contractor P. T. Green recently completed a beautiful and entirely modern residence for Mr. J. C. Jones of the J. C. Jones Hardware company at the corner of North Fifth and Chestnut streets.

The new residence is thoroughly modern in every respect and was constructed at a cost of \$10,000.

Real Estate Transfers.
A big boom in real estate is promised for this spring. Contractors and builders predict one of the heaviest building seasons ever had in Newark, and in this connection quite a number of transfers of real estate have been made during the past week. From March 7 to Tuesday, March 12th, inclusive, 53 deeds were filed for record in the recorder's office. Of these 13 were on lands, covering 546.76 acres and with a total consideration of \$21,220, and 11 deeds of \$1 and other valuable consideration. The total consideration, exclusive of the 11 \$1 transactions was \$49,387.

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington tells how Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Mrs. Mary Dimmick
Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter: "I have been a sufferer for the past eight years with a trouble which first originated from painful periods—the pains were excruciating, with inflammation and ulceration of the female organs. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me."—Mrs. Mary Dimmick, Washington, D. C.

Her second letter: "Dear Mrs. Pinkham—You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman would read this letter and realize what you can do for them."—Mrs. Mary Dimmick, 69th and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—It saved her life. Mrs. Pinkham has on file thousands of just such letters as the above, and offers ailing women helpful advice.

No Robbers in the "House."

A good joke on Representative William A. Ashbrook, is going the rounds among his many friends in this city. The joke, which is reported to have come from the lips of the "joke" himself, is as follows: It seems that Mr. Ashbrook is a very sound sleeper, and one night shortly after he began the duties to which he was recently elected, his wife after considerable effort awakened him with the words, "Will, wake up, I believe there are robbers in the house." Representative Ashbrook, with a groan, opened one eye and turning over remarked: "None. Not in the house, but there may be robbers in the Senate."

Special Meeting of City Council. A special meeting of the City Council was called Tuesday night by Mayor McCleery at the request of Councilmen Beadle, Caine and King, for the purpose of engaging attorneys to represent the city officials in the suit filed by Solicitor Frank A. Bolton restraining them from depositing the city's funds according to the ordinance passed.

All members were present except Councilman Conrad and President Beadle presided over the meeting. A resolution was passed that J. D. Jones and A. A. Stasel be engaged by the council to defend the city officials in the case filed by the solicitor. The attorneys were instructed by the resolution to take such action as would best subserve the interests of the defendants in the suit.

Another resolution was adopted approving the bonds offered by the Newark Trust company be rejected and returned, inasmuch as the bank was not mentioned in the ordinance naming the banks for the deposit of city funds.

There is some considerable feeling against the action of the council last night with reference to the employment of attorneys to defend the city in the suit filed by City Solicitor Bolton. The question in dispute is only for the deposit of the city funds for a short time, a few months at the most. The amount of money involved in the suit is small, and the idea of the councilmen is that they will save the city one-half of one percent on a few thousand dollars. The amount saved would not be very large and this saving is pretty certain to be much less than the bills of the attorneys for fighting the case, regardless of the way it may be decided.

A committee of ladies and trustees from the City Hospital, accompanied by Dr. J. A. Mitchell, waited on the finance committee regarding the future of that institution. After a long conference it was decided to continue the hospital for an indefinite time as Dr. Mitchell agreed to let the hospital remain in its present location for some time.

NOTHING TO EAT AND NO FUEL

HAD THE FAMILY OF GEORGE PFEIFER ON SOUTH FIFTH STREET.

When the Constable Appeared to Serve a Writ of Restitution Sued by Landlord.

One of the most pitiful cases of want and destitution that has been discovered in Newark for some time, came to light on Tuesday through a case brought before Justice J. R. Atcherley.

It seems that George Pfeifer had been living with his family, consisting of his wife and four children, and the mother of Mrs. Pfeifer, in a house belonging to Mr. Matthew Farran, at 237 South Fifth street, for some time.

The family found it very difficult to get along even when the husband worked, which was very seldom, from all accounts. About three weeks ago Pfeifer disappeared, leaving his family in destitute circumstances, and owing a considerable amount to Mr. Farran for rent. Mr. Farran, finding that it was impossible to collect his rent brought suit in Squire Atcherley's court for two months' rent and was given a judgment for the amount.

A writ of restitution was issued and placed in the hands of Constable Robert Darnes, who visited the family on Tuesday afternoon. He found the members of the family suffering greatly from cold and lack of food, there being not a vestige of coal or provisions about the house, and a most pitiful scene was presented. The mother of Mrs. Pfeifer, who is unable to walk, is compelled to crawl about the house on her knees. This was too much for Constable Darnes, and he immediately reported the case to Township Trustee William Harrington, who, after investigating the case ordered a quantity of coal and provisions sent to the home of the destitute family.

Constable Darnes then saw Humane Officer Charles Bader and together they visited the house, after which they saw Mr. Farran and made arrangements with him to allow the family to remain in the house until they could secure another place of residence.

About this time they learned that Pfeifer had returned to the city, and hunting him up laid down the law to him in a very forcible manner. Pfeifer promised to go to work and support his family.

Mr. Bader and Mr. Darnes Tuesday evening circulated a paper among the business men of the city asking for subscriptions for the relief of the family with the result of collecting \$22.10.

On account of the success of their efforts the gentlemen make the following statement:

We, the undersigned, extend many thanks to the subscribers of this fund for the relief of Mrs. George Pfeifer, of 237 South Fifth street.

INCREASED TRAVEL

Is Noticeable by Newark Ticket Agents Since the Rate is Two Cents a Mile.

The effect of the two cent rate is quite noticeable, and a large amount of travel between this and neighboring cities is being noted, there being more of it than before the rate bill was passed.

The difference in the fares to the neighboring cities, while not so very material, serves as a standard of comparison of the rates for longer distances. For example, the old rate to Columbus over the B. & O. was \$1.50 for the round trip, while now only one way tickets will be sold, and these cost 65 cents, making a \$1.30 rate to the Capital City. The old rate to Zanesville from this city and return was \$1.55, while the new rate is 50 cents or \$1.00 the round trip. To Mt. Vernon the new fare is 50 cents each way instead of the \$1.25 round trip, and the round trip rate of \$2.50 to Mansfield is changed to \$1.25 each way.

The effect on the travel to points out of this state can not yet be noted and at present the fare to Chicago for example remains the same, \$5.75. The schedule of rates on Interstate passenger traffic has not been set by the companies.

SEPARATION LAW TO BE ENFORCED

BY NEW FRENCH MINISTRY AS APPLIED TO CHURCH AND STATE.

While the Policy in Foreign Affairs Will Not Differ From That of Former Cabinet.

Paris, March 14.—The first cabinet meeting of the new premier, Sarrien ministry, was held at the ministry on Monday morning. The terms of the government's declaration were discussed. It was decided they should be read to parliament this afternoon. The ministers went to the Elysee palace, where they submitted their declaration to President Fallieres for approval.

After the cabinet's declarations had been presented to Fallieres they were read to parliament by President Sarrien in the chamber of deputies. The announced policy of the government in connection with internal affairs bears principally upon the subject of the separation law, which caused the downfall of the Premier Douville ministry. The government announced that the law will be strictly applied, resorting to all measures necessary to do this.

In foreign affairs the government announced its intention to continue the policy of the former ministry, especially in connection with Moroccan affairs. An early settlement of this pending question is hoped for. France will also remain faithful to the Russian alliance under the new government.

THE REAL TEST.

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair cures may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

The Senate committee known as the Drake committee, which is investigating affairs in Cincinnati, keeps right on digging into dolms under the administration of the Cox machine and bringing to light many affairs that cause Cincinnati people and the people of the state to wonder that the machine was permitted to rule so long. And yet some Republican organs in the state, which are like the Republican members of the legislature who balked when the investigation was proposed, insist that it is a partisan investigation, the Senate Democrats being in the majority having decided to go ahead with the work. It must be confessed that the investigation is somewhat partisan, in the sense that it is distinctly Republican dolms that are being investigated and aired to the discomfort of the machine politicians. The Republican papers that are still crying out against the investigation—and happily they are few in number—seem to have a winning way of getting on the unpopular side of public questions. The indications are that the only very small portion of the Cox crookedness has yet been uncovered. It should be understood that the three lawyers employed by the investigating committee are all Republicans.

Congress will do well to considerable restrict the franking privilege permitted to the members of that body and to other Federal officials. There has been the grossest abuse of this privilege, it being charged that not only laundry, but all kinds of bulky furniture and even a cow have been franked through the mails. The cost of the franked matter is immense, and it is one of the causes of the deficit in the postal revenues. The franking privilege can be largely restricted without in any way impairing the efficiency of any department of the government.

The Columbus Dispatch says: "One of the standpatters in the senate who killed the Philippine tariff bill was Senator Dick of Ohio." There is much for which Secretary of War Taft is responsible. He got up that Philippine party last summer. Congressman Longworth lost his heart on the trip and the insurgents in the Eleventh Ohio district got busy in the absence of Congressman Grosvenor and worked his defeat in the recent Lancaster convention. Taft spoke in Akron, Dick's home town, and there delivered the blow that put George B. Cox out of politics and discredited Dick as the Republican state chairman.

Now that Germany is to have several battleships of 18,000 tons, the size of the new British Dreadnaught, our own naval experts have begun talking about the necessity of going a little further and constructing vessels of 19,000 tons. It is only a few years since battleships of little over half this size were thought to be wonders. But every year or two has

seen an increase in the tonnage and in the armament of the battleship. Along with this increase has gone a considerable increase in the cost. The process promises to continue for some time to come, or until the people of the great powers of the world refuse to stand any longer for the expense. The time is sure to come, or until the people of the great powers of the world refuse to stand any longer for the expense. The time is sure to come when there will be a general revolt against the idea of putting six or seven millions of dollars in a vessel for which there may never be any use whatever.

QUEER FOOD FOR QUEER PEOPLE.

In Kamchatka the people live in earth-covered pits. Mr. Kennan compares the sound of their language to that of water running out of a narrow mouth. Their bread is made from the inner bark of the Pine Tree, macerated in water and baked without flour. They are a hardy race, the Pine keeping the blood pure and the various organs of the body in a healthy condition. Consumption is unknown among them.

Dr. Leach, a noted specialist in throat and lung trouble, who established a camp for consumptives in the Pine Woods of Maine, and whose remarkable cures there have attracted great attention from the medical world, says that one-half ounce of the Pure Virgin Oil of Pine, mixed with two ounces of Glycerine and one-half pint of good whisky, and used in teaspoonful doses, will heat and strengthen the lungs, break up a cold in twenty-four hours and cure any cough that is curable. The ingredients can be secured from any good prescription druggist at small cost.

TREES INJURED BY MICE AND RABBITS

Wooster, O., March 14.—The State Agricultural Experiment Station sends out the following important bulletin: This winter, many orchard and other trees have suffered injury by rodents. In one instance, to which the attention of the Ohio Experiment Station has been called, every tree in a grove of 200 catalpas, set out for two years, was completely girdled, some trees to a height of more than a foot, by the meadow mouse, *Microtus pennsylvanicus*. Some of the trees had their main roots badly cut and injured, making their permanent recovery very doubtful. This grove was on low ground, bordered by grass and ditches, the surroundings furnishing exactly the environment most agreeable to this species. Also the weeds and grass had been left among the trees, thereby not only furnishing concealment and nesting places for the mice, but means of ascent by which they were enabled to girdle the trees to so great a height.

Orchard trees, when girdled in this manner, as best remedied by bridge grafting. Less valuable trees, like catalpas and locust, growing upon their own roots, should be cut off close to the ground and allowed to spring up again, allowing only one strong shoot to grow.

Since no department of the station has hitherto been specially charged with the investigation of these creatures, experience in protecting against them has been largely confined to mechanical devices around the trunks of valuable orchard trees. A woven wire cylinder of rather small mesh, about eighteen inches or two feet high, has given good results.

The Minnesota Experiment Station says that some experienced tree growers recommend the following treatment as protection against rabbits and mice:

Make a thick whitewash, about the consistency of cream, to which add enough vitrol to give a "robin's egg

blue" color. Pass between two rows and apply with a brush, coating that side of each row which is next to the operator.

Another remedy recommended is to make a poisonous solution, using one part of sulphate of strychnine, one-third of one part of borax, one part of white syrup, ten parts of water. This mixture is put into a large, wide-mouthed bottle and well shaken. Now cut fresh twigs from the kind of trees that are being attacked and with a small brush paint them lightly with the poison, especially the terminal buds. These are said to kill mice and rabbits without endangering birds and other useful creatures.

Mice may also be killed with strychnine, powdered on corn meal stuff. Wheat or corn may be soaked for 24 hours in a strychnine solution, made by boiling a teaspoonful of the crystals in two quarts of water, the grain, when dried, to be scattered at the bases of trees.

A DEAD RAT

Drives the Public Service Board from Its Quarters and Baffles the Police Chief.

The entire force of city officials, the janitor's squad and the largest part of the health department, including Health Officer Jones, are very much exercised over the antics of a rat which has taken up a permanent residence in the Board of Public Service office. Mr. Rat has long since ceased to live, and his presence has become very objectionable to those who are compelled to spend a portion of their time there.

A forcible detainer proceeding was instituted against the rodent and the writ was placed in the hands of Chief of Police Sheridan, but every effort to serve the writ failed and the chief was nearly suffocated in his effort to locate the offensive little animal. Health Officer Dr. Clark Hatch was called in consultation and advised the liberal application of chloride of lime and even though the janitor was zealous in his efforts to live up to the "liberal" point of the suggestion, his efforts accomplished nothing.

The public service board members have been driven away from their offices. Member M. M. Taylor hied himself off to Columbus Monday thinking that the funeral would be over but was disappointed. The board is now seriously contemplating the raising of the city building in order to find the animal which is far more offensive than the festive little pole kitty. A liberal reward will be paid to any one who will produce the offensive rodent, either dead or alive.

Mr. Taylor is of the opinion that the animal is very much alive and is working over time.

There's nothing so good for a sore throat as Dr. Thomas' Electric Oil. Cures it in a few hours. Relieves any pain in any part.

RAILWAY AFFAIRS

Those on the "inside" who so confidently predicted an adjustment of difficulties between miners and operators, two weeks back, have changed front and are preparing for a gigantic struggle. The United States Steel company may be able to hold some operators to their 25 year contract, but the shattering stand of Ohio operators has shattered all hopes, for the time being at least, of peace in this and surrounding districts.

Preparations by the Pennsylvania and B. & O. railroads for war are progressing.

The Marietta Division has received orders to store 1,100 cars of coal in the yards around the Cambridge shops.

Three hundred loaded cars have been secured and it is understood that every car not absolutely necessary for immediate use in other traffic is passing into this service. This activity extends all along the main and branch lines of the Pennsylvania systems.

The B. & O. is not behind in the work. Arrangements have been made to store many thousands of tons of Sandusky. Orders have been given to dump coal without cessation in the Newark yards, which is an important junction, and the work began this week. Much of the coal for Newark and Sandusky will come from Cambridge and St. Clairsville mines and also from the Shawnee district.

At Wheeling the B. & O. has been at work for some time. The trestle in the yards there is being greatly improved and extended and the "loop" will be so arranged that it can hold thousands of car loads. The dumping in this hold is active as the car shipments last Saturday were enormous and the number received and stored Sunday far exceed that of any previous day.

BOTH ACCEPT THE HONOR

Roosevelt and Taft Elected Honorary Members of a Cincinnati Club.

SECRETARY AIRS BOSSISM

Governor Pattison Issues a Statement Defining His Attitude Toward Temperance Measure—Ouster Suits Likely Against Railroads—Candidates Who Would Succeed Garber.

Cincinnati, O., March 14.—President Roosevelt and Secretary of War Taft were unanimously elected members of the Roosevelt Republican club of this city. The club is a new organization, formed after the recent election as an instrument for the maintenance of a Republican organization, "opposed to bossism and machine politics." In a long letter of acknowledgement and acceptance of the honor for himself and for President Roosevelt, Secretary Taft makes some striking statements. Referring to the recent defeat of George B. Cox, as a political leader in this city, the secretary says that this is a great step towards good municipal government, "but its benefit may be largely lost if the people put themselves on the back with the pleasant idea that the machine is broken up and that the future will take care of itself. The truth is that the victory will be worse than fruitless unless some means are devised to make its effects permanent. It is idle to hope that people may be aroused at every political contest to defeat machine slates, unless there are counter organizations made up of young men actuated by the patriotic desire to select only good candidates."

Mr. Taft adds: "The members of such a club as the Roosevelt club, although an orthodox Republican organization, may very well decline to support the candidate of its own party, if such candidates are plainly lacking in the qualifications according to the standard which they may properly set for their selection of public officers. Still it is well to use a wise discretion in bolting. The important question will always be in what you can secure and exercise the greatest influence for good, and you cannot afford in practical politics (and there are no other politics) to ignore the strength which adherence to regularity gives you as a club in working reforms within the party."

Another Candidate.
Wapakoneta, O., March 14.—W. E. Touvelle, an attorney of Celina, has entered the race for Harvey Garber's seat in congress from the Fourth congressional district. The announcement was made by the presentation of his name to the Democratic central committee of Mercer county as a candidate for congressional honors in the county primaries. This makes four active candidates now in the field, Charles Adkins of Allen county, J. H. Goetz of Angalia, Dr. J. W. Costello of Shelby, and Mr. Touvelle of Mercer.

Strike Closes Plant.
Youngstown, O., March 14.—Because one man was refused admission to the works of the Valley plant of the Republic Iron and Steel company, after a brief absence, 60 puddlers and helpers are on strike. As a result the entire concern was closed down, throwing 1,000 men out of employment. The company asserts that it is a violation of their agreement with the Amalgamated Association for employees to leave the plant between heats.

Ouster Suits Likely.
Columbus, O., March 14.—The canal commission has discovered that the Cleveland, Akron and Columbus rail road and the Pennsylvania lines, as well as the Akron and Barberton belt line, at Barberton, are all encroaching upon state property, and demand will be made soon upon the attorney general to bring action to oust them. The companies have filled in a part of an old canal basin owned by the state and appropriated it for track use.

Governor For Jones Bill.
Columbus, O., March 14.—Governor Pattison issued a statement concerning his attitude toward the Jones bill, providing for residence local option by petition. The governor says: "The rumor that I am opposed to the Jones local option bill is entirely unfounded. I think the bill is a good one and I hope the senate will pass it. The people of Ohio have certainly expressed in no uncertain tones their wishes to protect residence districts."

Two Lads Fatally Burned.
Steuersville, O., March 14.—Charles Harness and William Patterson, boys of Wheeling Junction, were fatally burned by natural gas flame from a break in the main beside the road. A man who was passing while the boys were near the leak tossed a heated match into the escaping gas, which ignited and enveloped the boys.

Killed Himself.
Washington C. H., O., March 14.—A. S. Glasscock, sr., a wealthy citizen, committed suicide in the office of a local physician. He sent a bullet through his brain. Mr. Glasscock was 60 and had been in ill health.

CORN SHOW

At the March meeting of Newark Grange it was determined to hold another corn show and institute next fall. Also to add potatoes to the list.

We hope the corn show last fall will result in much good, and that we will see an improvement in the exhibits. We also hope that the farmers of Licking county will more generally take an interest in the institute.

We presume that every owner of a farm wishes to obtain a profit from its ownership. It is surprising the number of city business men that are owning farms and that they are claiming good dividends on their investments. How do they go about interesting their tenants. Here are the methods pursued by some of them:

At the annual show held by the farmers institutes or Granges these men offer prizes to their tenants who will win any of the premiums offered at these shows. Some will offer a purse of \$25 to be divided among their tenants who win first, second or third award.

One business man in Columbus, who has quite an extent of corn land in Franklin county, has an annual show and banquet just for his tenants, and has the best expert he can obtain to come and award the prizes, and at the close of the banquet the expert delivers a lecture on corn-growing.

If any of our Licking county farmers desire to encourage their tenants, Newark Grange would be pleased to correspond with them. Or if any of the dealers in agricultural implements or fertilizers desire to advertise their wares by contributing to our premium list we would be pleased to hear from them.

Licking county generally carries off the majority of prizes on potatoes at the State Fair so we will expect a good show of potatoes.

MAPPED OUT THE PROGRAM

Miners' Executive Board Prepares For National Convention.

STIRRING SESSIONS LIKELY

Ryan Resolution Blocks Conference With the Bituminous Operators. Dolan to Put Up a Hard Fight. Amicable Settlement of Wage and Other Questions Anticipated.

Indianapolis, Ind., March 14.—The special national convention of the United Mine Workers of America, called by President John Mitchell in response to the request of President Roosevelt to make an effort to avert a strike of all coal miners in the United States, opens Thursday. The rescinding of the Ryan resolution will be the most important business to come before the convention. Until this is done there can be no joint conference with the operators who will come to Indianapolis next week.

This is the effect of the announcement by the anthracite operators that they will not accede to the demands of their employees. The refusal of the anthracite operators to treat further with the union in districts one, seven and nine out of the question. The Ryan resolution, adopted by the miners just before the adjournment of their regular national convention, provides that contracts must be signed in all districts under the control of the organization at the same time or that no agreements shall be entered into.

The national executive board are holding an all-day meeting at their rooms in the State Life building at which they will map out a line of work to be submitted to the delegates who will assemble Thursday morning.

Patrick Dolan, the deposed president of the Pittsburgh district, will be present to claim his seat as a delegate. His following in Pittsburgh has developed unexpected strength as evidenced by the defeat of Delegate Watchorn, who has been especially bitter in his denunciation of Dolan's actions at the last convention. Dolan's attempt to justify himself at the convention is expected to raise a storm.

There is a glimmer of satisfaction on the faces of the members of the miners' national executive board which indicates that they believe there is yet hope for a settlement with their employers and that at least that part of their demand which relates to a "substantial increase in wages" will be granted. None of them will discuss the subject to any great extent, but it is easy to see that they are in a better frame of mind than when they left Indianapolis six weeks ago.

Vice President Lewis, who has been confined to his home at Bridgeport, Ohio, for the past two weeks by a severe attack of grip, is much improved and says that he will be able to take his full part of the work of the convention. He declined to talk of the outlook, further than to say that he expects the hottest fight the United Mine Workers have ever known.

To Succeed Dolan.
Pittsburg, March 14.—Twenty-three thousand members of district 5, United Mine Workers of America, are balloting for officers of the district in the special election ordered by the recent district convention. Only one candidate has no opposition and that is William Little, who is a candidate for reelection as national executive board member. There are but two aspirants for the presidency to succeed Patrick Dolan. They are Edward McKay of Versailles and Frank Feehan of Castle Shannon. The general sentiment appears to be in favor of the election of Mr. McKay.

Stand of Operators.
Terre Haute, Ind., March 14.—The Indiana bituminous coal operators' association by resolution adopted at the annual meeting tonight opposed making any change in the scale of wages for mining coal that will increase the cost of production above the scale made two years ago. The action means, according to the operators, that unless the miners back down from their demands for increased wages, there will be a strike April 1. The operators of Indiana, Ohio, Pennsylvania and Illinois are a unit in this matter.

Iowa Child Labor Law.
Des Moines, Iowa, March 14.—With the passage by the senate of the child labor bill, the measure will become a law, as Governor Cummins will sign it at once. The new law prohibits the employment of children under 18 in any gainful occupation which would injure his health. The law is also aimed at department stores, prohibiting employment of children in positions which compel them to remain standing for any length of time.

Would Restrict Jap. Immigration.
Washington, March 14.—The house devoted itself to general debate on the legislative appropriation bill. First they discussed the question of eliminating aged clerks from the employ of the government, then came a discussion of free alcohol, for the arts, the restriction of Japanese immigration, and finally a defense of New York city. Mr. Hays of California spoke in behalf of restricting Japanese and Korean immigration.

Hood's Sarsaparilla

Has cured so many cases that seemed almost beyond the reach of medicine, that people ask, Why?

An examination of our well-known formula from which Hood's Sarsaparilla is and always has been carefully and scientifically prepared, confirms the fact that it contains those well-known and valuable medicinal ingredients, which, when intelligently combined and properly administered, are sure to bring about good results.

It is the properly balanced proportion, combination and process in combining those ingredients known to have specific action upon the blood, stomach, liver, kidneys and bowels, which make Hood's Sarsaparilla peculiar to itself and enable it to produce results unequaled by any similar medicine. It cures when others fail. Give it a trial. Usual form, liquid, or new form, tablets, 100 Doses One Dollar.

WIRELESS TELEGRAPH TO TELL OF WALTER WELLMAN'S FLIGHT TOWARD NORTH POLE IN BALLOON

Walter Wellman

NEW YORK, March 14.—Walter Wellman, who is to make another dash toward the pole, this time in a dirigible balloon with automobile sledges and a metallic boat aboard, for use in the event of accidents, or untoward weather, has arrived here from France.

He has come to arrange for the construction of his automobile sledges and agree upon the selection of the five men who are to accompany him on the expedition, one of whom is to be appointed by the Weather Bureau in Washington.

Mr. Wellman has made some changes in the capacities of his dirigible balloon.

"Lewis Gopard, of Paris, is building it under Santos Dumont's supervision," he said. "We have decided to make it 164 feet long and 53 1/2 feet in diameter. The balloon envelope will weigh 1,200 pounds and will be of three thicknesses—two of cotton and one silk, reinforced by rubber. It will stand a pressure of one thousand pounds to the square yard, greatly more than we will need, and will have a coefficient of five to one."

" motive power will be provided by three engines, supplying in all 80 horse power. These will yield a speed of ten to twenty miles an hour. The bag will receive 225,000 cubic feet of gas, and when inflated will have a lifting power of 16,000 pounds, including the weight of the machine, which will be 7,500 pounds, and that will leave us 8,500 pounds for the five men, the instruments, 550 pounds of gasoline, four automobile sledges weighing 210 pounds each, a metallic boat and equipment. The balloon will cost \$75,000, and we will have it equipped with wireless telegraph."

July 4th would have elicited some comment, but here was a little barefooted girl not over four years of age, gleefully playing in the snow without attracting special attention of the residents of the district.

The reporter stopped and commented on the fact to a neighbor. "Oh, we're used to that," was the remark. "All last winter that child and her little brother went barefooted and nobody has seen the children wearing shoes this year. The mother says the children won't wear shoes, but I believe they would if they had a chance."

The little girl, though blue with the intense cold was apparently enjoying her play, but when the Advocate made some inquiries about her condition the little child paid no heed, but went on with her sliding-down-the-hill game of solitaire.

"RUBE" WADDELL LOST HIS WAD

PHILADELPHIA ERRATIC PITCHER IS HELD UP IN BIRMINGHAM AND ROBBED.

Two Negroes Said to Have Assaulted Ball Player, Leaving Him Unconscious.

Birmingham, Ala., March 14.—On Allen street, in Montgomery, last evening, Edward (Rube) Waddell the famous Philadelphia pitcher was attacked by highwaymen and robbed of \$10, he being found some minutes later in an unconscious condition by Brouters and Cross. Waddell bears a scar some inches long on the back of his head, but is again on his feet. The case was reported to the police. Waddell, Brouters and Cross were seeing the town, and Rube separating from his companions, wandered into Allen street. Rube states that he passed two negroes, but gave them no thought. Later he felt that someone was approaching from behind, and turning his head, received the blow that rendered him unconscious. He regrets the loss of the \$10 and pays no attention to the severe gash in his head.

Senate Passes Bill Aimed at Government Officials.

Washington, March 14.—Before taking up the railroad question, the senate passed a number of bills, some of which were of considerable importance. One of them provides for the punishment of government officials, for the premature divulgence of secret information of government bureaus in such matters as the crop reports; another grants executive authority in the matter of construction of bridges over navigable streams, and still another gives congressional sanction to the effort on the part of Delaware and New Jersey to adjust their long pending boundary dispute. Mr. Simmons made the speech of the day on the railroad rate question. He announced his support of the house measure, but said he would not oppose reasonable modifications.

At Palace Rink.

Manager Richards of the Palace Rink in East Newark is preparing a series of entertainments for his patrons which will be entirely new in Newark. Besides the masquerade tonight, he has announced that the week of March 19 will be given over to skating races of all kinds. On Wednesday evening, March 29, the management will introduce a distinctly new feature, the Old Fashioned Farmers' skate. The hall will be decorated after the manner of a fall festival such as those of feller pumpkins, etc., being used in the decorations.

Another new novelty will be the Tag Night, Friday night, March 30. It will be a regular case of "tag, you are it," on this night and the visitors at the rink on these nights are guaranteed a good time.

Panama Health Report.

Panama, March 14.—Colonel William C. Gorgas, chief sanitary officer of the canal zone, transmitted to Governor Magoon his report for the month of February. In that month no cases of yellow fever or other quarantinable diseases occurred within the canal zone, though bubonic plague, yellow fever and smallpox are prevalent on the South America Pacific coast and also at Paranaquilla, Colombia. One case of yellow fever was reported at Bocas del Toro, where Dr. Purbell had been sent. Among the 23,000 canal employees the sick rate for the month was twenty per one thousand and the deaths numbered seven whites and 23 negroes. Only one American died.

"NO DEMOCRATS STATE BOSSES

And in Only Three or Four American Cities Has

THE EXCRESCENCE FLOURISHED

FOR ANY LENGTH OF TIME IN THE DEMOCRATIC PARTY

Said Judge Alton B. Parker in An Address Before the Mississippi Legislature Tuesday.

Jackson, Mich., March 14.—Judge Alton B. Parker of New York delivered a speech on "Democracy" before a joint session of the Mississippi legislature at the Century theater Tuesday. Judge Parker was introduced by Chief Justice Whitefield of the Supreme court.

An audience of about 1,000 people was assembled. Judge Parker declared that vast industrial fortunes, monopolies, legislative lobbies and political bosses are all the outgrowth of the system of special privileges which had its origin in the protective tariff. Continuing he said:

"It is one of the natural but interesting and often overlooked facts of political history that, with all the development of 'bosses' throughout the country during the past generation, there is no instance where, in any state, a Democrat has come to the front with the will and the opportunity to use public power or revenues to enrich himself or his henchmen or his followers. It is also true that in no more than three or four cities has this rank and foul excrement been able to gain a hold, to grow and flourish for any considerable length of time in the Democratic party."

"No claim need be made that this is an illustration of party virtue, but it is true that never in its history has the party been so allied with monopoly as to attract its agents."

Judge Parker then reviewed the recent disclosure of insurance scandals in New York and asked, "Shall we hesitate to punish because our criminals wear broadcloth, instead of the fustian, or the rags in which some were once clad?"

"After a long judicial experience and some study of this question, I say to you," Judge Parker continued, "here and now, that I do not believe it would be possible, in that great metropolitan city, to draw a grand jury which would not indict for at least two, and perhaps three, of the most serious crimes known to the law. Still further, it would not be possible by any change of venue, for any one of the men so indicted, if fairly proven guilty, to escape conviction before a trial jury in any one of the other sixty counties of the great state of New York."

Judge Parker contended that new laws were not so much needed as publicity. "What has been lacking of late," he said, "is the disposition to enforce the criminal laws against corporate law violators. And the underlying reason has been corporate political contributions or other service."

"During recent years there has been much discussion of the terms conservatism and radicalism, generally with the assumption that one means reaction, while the other spells progress. No classification can be more at fault. While conservatism is attached to that which has justified its existence by its usefulness, it must also be credited with a strong, unwavering enmity to all things that are dangerous. It insists upon the preservation of the honest results of human labor, whether they are moral or material, and it has some reverence for the Ten Commandments."

"But it condemns anarchism, socialism and communism, that traitors of evil and heeds almost as old as the world itself. It has rejected and disclaimed, in all its forms, that repudiation—which is certainly older than the oldest existing civilization."

MALARIAL FEVER

Breaks Into Banks of Ciney's Men and Manager Randon Will Return North.

Marlin, Tex., March 14.—A bad blow fell on the Cincinnati baseball club yesterday when Manager Randon's physicians informed him that he had better go home than run any risk of being laid up here with malarial fever, which is threatening him. The Reds' leader has been under the weather for the past week, but has struck to his post in the hope of fighting down the dumpy

feeling which has afflicted him ever since arriving here. During Randon's absence Joe Kelly will lead the team.

Masquerade tonight at Palace Rink.

COMPELS DOCTORS TO KILL PATIENTS

Legalized Compulsory Murder to End Misery Proposed in Bill in Iowa Legislature.

Des Moines, Ia., March 14.—Legalized compulsory murder to end the misery of those in great physical pain and whose disease or injuries must prove fatal eventually, and to prevent the roasting of children who are unaccountably deformed or hopelessly idiotic, is proposed in a bill which has been introduced in the Iowa Assembly by Representative P. N. Buckingham at the request of Dr. R. H. Gregory, who represents Adams

county in the House. Dr. Gregory expected to introduce the bill himself, but was detained at home by illness in his family.

"A bill for an act requiring physicians to take human life," is the title of the proposed measure, as read with startling effect this afternoon by the head reading clerk. It brought every member up with a start. There was an instantaneous turning of heads in the direction of the seat of the "gentleman from Adams." His absence prevented inquiries then, but later Dr. Gregory explained his bill.

"What I propose for the benefit of human beings," he said, "is no more than you are now practicing in the exercise of humanity to dumb animals. A friend of mine who suggested this bill to me told of a relative who had been paralyzed for three years, dying a lingering death, which was as certain as it was slow. How much more humane would it be for a physician to administer some anesthetic to such a patient and painlessly end it all in a few minutes."

Robbing Yourself

That is just what you are doing when you fail to get regular and sufficient sleep. Your body requires this unconscious period for repair work; without it your nerve energy becomes exhausted, and you are tired, worn-out, nervous, excitable; have headache, neuralgia, indigestion, poor appetite, or other ailments caused by a lack of nerve force. Make it your business to sleep. If you are restless, take Dr. Miles' Nervine; it soothes and strengthens the nerves, and brings sweet, refreshing, life-giving sleep, and gives the organs power to work naturally. Try it to-day.

It had a very special effect, which put me in a very good condition and very nervous. I had severe neuralgia, headache, indigestion, and could not sleep. I had been told that Dr. Miles' Nervine was good for all these things, and I had bought a bottle of it. I had been told that it was good for all these things, and I had bought a bottle of it. I had been told that it was good for all these things, and I had bought a bottle of it.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money. Miles Medical Co., Elkhart, Ind.

LOVE AFFAIR CAUSES SUICIDE OF YOUNG ACTOR

Washington, March 14.—William Thomas, 22, of Saginaw, Mich., a member of the "Wonderland" company, performing at the Columbia theater, committed suicide by drinking carbolic acid while the play was in progress. Thomas was an admirer of Miss Gordon, a 15-year-old girl, and a member of the company, and who is said to live in New York. The suicide was caused by disappointment because she would not reciprocate his attentions. After the show was over Miss Gordon went to the hospital to which Thomas had been removed and on seeing his body said: "I did not know he thought so much of me. I did not mean to break his heart. He misjudged me."

Playwright's Throat Cut.
New York, March 14.—Louis De Lange, a playwright, whose home is in Philadelphia, was found dead in his room here, with his throat cut. Samuel Kerban, 17, a newsboy, is held on suspicion.

ACTORS WERE FINED CONRIED ACQUITTED

The Metropolitan Impresario Was Recently Arrested for Producing Verdi's Mass on Sunday.

Toledo, O., March 14.—Fifty actors and actresses arrested Sunday for playing at local theaters in violation of the state law have had their trials. In a justice court from which warrants were issued on complaint of the theater managers themselves, a fine of one dollar was assessed on each actor and actress. Immediately after the defendants appeared before the city court, from which warrants were secured by the law and order league of the federation of churches, and all were bound over to the probate court. All the performers playing at four theaters were made defendants.

New York, March 14.—Heinrich Conried, director of the Metropolitan opera house, was acquitted Tuesday of a charge of violating the law regarding Sunday theatrical performances. He was arrested recently for giving Sunday night concerts at the Metropolitan opera house, his arrest being made as a test case. Verdi's Requiem Mass was the production upon which the charge was based.

FINAL EXIT

Of Senator Depew From Public Life May Mark His Illness.

New York, March 14.—Upon the advice of his physicians, Senator Chauncey M. Depew will not receive callers or resume his duties for an indefinite period. In the spring he will go abroad, where his wife now is. He is at the home of a close friend, within a hundred miles of New York, where he is permitted to see only members of his family and a few of his more intimate friends. It is also reported that the present illness may mark his final withdrawal from all public activities.

For more than a week the Senator has been absent from the sessions of Congress, he being given out at his Washington home, that he was in New York. Tuesday it was learned that while he is not in a sanatorium, he is at the country home of a friend.

PUBLICITY

Of All Campaign Contributions Demanded—Belmont's Address to House Committee.

Washington, March 14.—Perry Belmont, of New York, president of the National Publicity Bill organization, addressed the House committee on election of president, vice president and representatives in Congress yesterday on the purification of political campaigns by preventing secret contributions.

Mr. Belmont said Mr. Griggs, who has just been elected chairman of the Democratic congressional committee, is willing to publish all contributions he may receive in the approaching campaign.

Children Burned.

Emporia, Kan., March 14.—In the destruction by fire of the home of Charles Grummett, at Emporia, near here, one of his children was burned to death, another was fatally burned, and Mrs. Grummett was seriously burned in rescuing the children.

CUMMINS' PROMISE.

Des Moines, Ia., March 14.—The House by a vote of 73 to 6 late yesterday passed the Gilliland resolution calling Governor Cummins to make good his charges that railroad influence was used to defeat the primary election bill. The governor promises to do so.

AMUSEMENTS

THE PARTING OF THE WAYS.

There are few actor-playwrights who occupy the high position on the American stage as Neil Twomey, who will present his latest play, "The Parting of the Ways," at the Auditorium tonight. It is a comedy drama and unfolds a story that is intelligent and remarkably interesting from the first to the last. Mr. Twomey's experience and great ability as an actor has shown him just what the essentials of a successful play are and in this his latest efforts he is said to have combined them in a wonderfully clever manner. The story is one of novelty and many of the instances are absolutely unique. Mr. Twomey's company is one of the best to be found in melodrama and with elaborate accessories should prove one of the most satisfying productions to be seen here this season.

THE KING OF TRAMPS.

"The King of Tramps," a Yankee Doodle comedy, in four big laughing acts, which comes to the Auditorium Saturday, contains more actual wit, more innocent mischief, more admirable acting and good singing and dancing than is to be found in any ten of the average so-called musical comedies. Watch for the street parade.

FAUST.

In Porter J. White's production of "Faust" at the Auditorium Monday night, there are nine special electric effects, in addition to his own version of the famous Brocken scene. The chain of fire, electric sword duel, fire files, flower bed, stars, morning glories, necklaces, skull and crossbones, snakes, bats, lizards and other weird, uncanny and blood curdling creatures, all apparently cheerful inhabitants of this gruesome stage Hades.

CURRENT THEATER NEWS.

"The Lightning Conductor," the stage version of Mr. and Mrs. C. A. Williamson's novel, is meeting with much success. It is said, because of the great interest being shown now in automobile matters with which it deals. Herbert Kelsey and Edie Shannon are starring in this comedy. Milton Aborn, the well known opera producer and manager, has placed a company on the road which is presenting the well known opera "Robin Hood" made famous by the Bostonians. The cast contains many of the original company. Sir Gilbert Parker has completed his dramatization of his well known novel, "The Right of Way." This will be used by Kyrle Bellow after he

ing players and managers. A contract has just been made between James K. Hackett and Mr. Pollock, whereby the dramatist is to provide Mr. Hackett's wife, Mary Manning, with a play for her next season.

Pauline Hall is scoring a triumph in her tour in "The Pink Hussars," that seems to attest she, like Lillian Russell, has lost none of her charm of beauty with the passing years. The enthusiasm displayed over the quality of her voice and her personal charm during her engagement at Des Moines the past week was of a large measure.

The farce, "It Is All Your Fault," in which Edgar Selwyn is appearing, turns out to be a piece which was the hit of the London season last year under a different name. It has been adapted by Mr. Selwyn from the London version. It will be given a New York presentation about Easter time.

STATE AND NEIGHBORHOOD NEWS

Mayer Todd's Denial.

Springfield, O., March 14.—Mayor Todd denies emphatically the charges in the Castle divorce petition filed in Cincinnati and in which he is named as co-respondent. He issued a statement saying among other things: "I have positive information that the saloonkeepers of Springfield have a fund of \$1,900 to use to try to get something concerning my character which would influence me to raise the lid."

Ice Men Advance Prices.

Toledo, O., March 14.—Toledo ice dealers have notified their consumers that because of the scarcity of ice, prices will be advanced for the season from 75 to 100 per cent. over last year's prices. The ice haulers to the number of 400 asked for a wage increase of two dollars a week and threaten to go out if the demand is not granted. Dealers are firm against the increase.

Seek Pardon For Lorenz.

Toledo, O., March 14.—Letters are being prepared by citizens of Toledo and an organized effort will be made to induce President Roosevelt to pardon George E. Lorenz, now in Moundsville prison for conspiracy to defraud the government in the postoffice cases. Lorenz was sentenced to two years and has served one year.

Girl Wife Declared Insane.

Marysville, O., March 14.—Mrs. Ethel Hornbeck, 16-year-old wife of Frank Hornbeck, a business man of York, this county, was adjudged insane in the probate court by Judge Thornton and was committed to the state epileptic hospital at Gallipolis. The young woman is the mother of a babe.

Boy Commits Suicide.

Findlay, O., March 14.—Leland Zigler, 12, shot and killed himself on his father's farm near McCutchinsville, Wyandot county, as the result of a quarrel with his father. The lifeless body of the child was found about an hour after the shooting in the barn, by a member of the family.

Assaulted Train Officer.

Cambridge, O., March 14.—Truant Officer Springer of the West Side school house was struck and seriously wounded on the head Tuesday by Mrs. Owens, a colored woman. Some difficulty had been experienced in keeping a daughter of Mr. and Mrs. Owens in school and the truant officer, in discharge of his duty, had enforced the law by compelling attendance. About two weeks ago the mother came to the school house and attempted by force to take the child away from school, but was prevented from doing so by the officer.

\$1000 Salary for Commissioners.

Columbus, March 14.—At a meeting of the legislative committee of the County Commissioners' association of Ohio, at the Chittenden, on Tuesday, it was decided to present to the legislature a resolution asking that the minimum salary for county commissioners be fixed at \$1000 a year instead of \$750, a resolution recommending statutory amendment to permit counties to purchase their own road making machinery, and a resolution urging the repeal of the tax inquiry law, W. S. Vandevort, of Franklin, and J. W. Vandevort, of Vinton, expressed their individual disapproval of the latter resolution. The members of the committee present were: Stanley Streubel, Hamilton county; W. S. Carlisle, Franklin county; Mr. Lambert, Licking; J. W. Vandevort, Vinton, and S. B. Hill, representing J. F. Biddle of Athens.

Struck by a B. & O. Train.

Zanesville, March 14.—Unconscious and lying close to the tracks of the Baltimore & Ohio railroad, where he had been thrown while attempting to board an east-bound freight train when intoxicated, John Haly, who gave his place of residence as being above Cushion, was found Tuesday morning about 5 o'clock by the night watchmen, near the foot of Third Third street. Dr. H. R. Geyer was called and dressed the injuries, which consisted of several large bruises and a large gash over the right eye, which nearly destroyed the sight of the eye.

Elopes With Widower.

Solney, O., March 14.—Edward Speer of Green township, and Florence Smith were married five minutes before word was received from the girl's father to arrest them. Speer is a middle-aged widower and the girl is but 16.

WITH SHOT

Belling Party Riddles a Residence. Arrests to Follow.

Perryopolis, Pa., March 14.—Because he was besieged in his home all night, and because of damage to his property by strenuous serenaders on the occasion of the wedding of his son, H. J. Mossbury of this place has sworn out warrants for the arrest of 40 of the town's prominent young men. Mr. Mossbury says that the serenaders made him a target for sticks and stones, riddled his house with shot and caused other damage with dynamite. The serenaders, 50 in number, appeared at the Mossbury home and when Mossbury with his son and daughter-in-law appeared on the porch, the crowd threw a volley of stones, one of these hitting the elder man in the leg, causing a painful wound. Incensed with rage, he drew a revolver and firing into the air, ordered the crowd to leave. His act only served to enrage them, and after sending a part of their number after shotguns, members of the mob began a fusillade, which did not diminish until near four hours later.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.
Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also a convincing proof that the kidneys and bladder are out of order.

What To Do.
There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scaling pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this advertisement in this paper. Don't make any mistake. BEECH WOODS.

Harry Downhour, Harry Bright and Logan Shoemaker were arrested on the charge of assaulting George Giphart, an aged man, on his way home several evenings ago. The aforesaid trio wore masks, caught Gephart and clipped one side of his head. They were found probably guilty in Squire Dilger's court of this place, and were bound over to the grand jury under \$50 bond in each case.

Hiram Lamb had the bad luck to upset a bucket of fine molasses as he was coming from his sugar camp Friday evening. He had succeeded in getting one bucket full over the fence and was in the act of climbing over with the other when one of his feet became entangled in a rail, turning him over with bucket and contents. Arising from a warm pool of molasses completely soaked, sweet in appearance but bitter with regret, he returned home safely with the other bucket full.

Asa Hodge and family have moved to the Samuel Busby farm near Lancaster.

For the past week wild ducks in countless number have been on the Hite reservoir. One day a low estimate was three hundred, and this body of water is literally swarming with wild ducks every morning. Hunters are stationed behind every conceivable object ready to open a volley upon every flock that is attracted here. Thus far our champion clay pigeon marksmen have failed to bring very many of them down.

Mr. Bradford, a representative of the Lancaster Oil and Gas company, have been leasing through here. Up to the present time about 2,000 acres have been leased. It is the intention of the company to put down several test wells in a short time.

Rev. W. H. Baker of Linville has closed the protracted meetings held in Drum's church. After one week's meeting, with three accessions, the services so to speak, commenced in mid and ended in mud. Rev. Mr. Baker said in his closing remarks to the interested congregation that he had never held a meeting under such disadvantage and difficulties experienced by people to attend services, owing to the awful condition of the roads, and in conclusion said he was glad the effort was not in vain.

Earl Henderson will work for Clark Diels this summer, where he will help take care of the fruit.

For the past few weeks it has been gratifying to note the great interest manifested in all parts of the country on the subject of good roads. True enough thousands of dollars have been spent throughout the entire country with nothing resembling permanency to show for the money. The people seemingly have at last awakened to the necessity of good roads and in comparatively few years there will be roads which may be traveled at all seasons of the year, cost what they may.

DRINK

Bars Men from Employment

Every line of business is beginning to shut its doors absolutely to drinking men. Business competition has become so keen that only men of steadfast habits can find employment.

Employers do not want men that are addicted to drink. A drinking man is not in fit condition to handle responsible work. Continued drinking destroys the nerve system. No "will power" can cure; treatment is necessary.

MARK TWAIN DECLARES THAT HE IS ENTIRELY TOO LAZY TO BECOME UNITED STATES SENATOR

New York, March 11.—Suggesting that in the event of the retirement from Congress of either of the New York Senators Samuel L. Clemens (Mark Twain) would be named as successor, a reporter for the Advocate called upon the humorist at his home, 15 Fifth avenue, to get his expressions on the subject.

Mr. Clemens, who was clothed in his pajamas and busily engaged in shaving when he was asked if he would accept a Senatorial seat, instantly stopping shaving the razor and, turning to his questioner with an expansive smile on his lathered face, said: "If such an offer as that were made to me it would be the most gigantic compliment I ever received. I would not consider myself, however, a worthy successor to Dr. Depew or Mr. Platt, as I am in no way qualified for the post. A Senator needs to know the political history of the country past and present, as well as its commercial, industrial and financial affairs. Of these things I am blissfully ignorant.

"Even if I were qualified, the duties of a Senator would be distasteful to me. My own particular work is the greatest source of pleasure I have, and for that reason I do not consider it as work at all. I regard myself as the most lazy human being on earth. I have absolutely no industry in me whatever, and to 'make good' as a Senator one must be in love with the job and be industrious."

NEVER TOO LATE TO WED OR ADVERTISE.

"If I were not so old," said the Elderly Man of West Newark, "I think I would get married. A wife would be a great comfort."

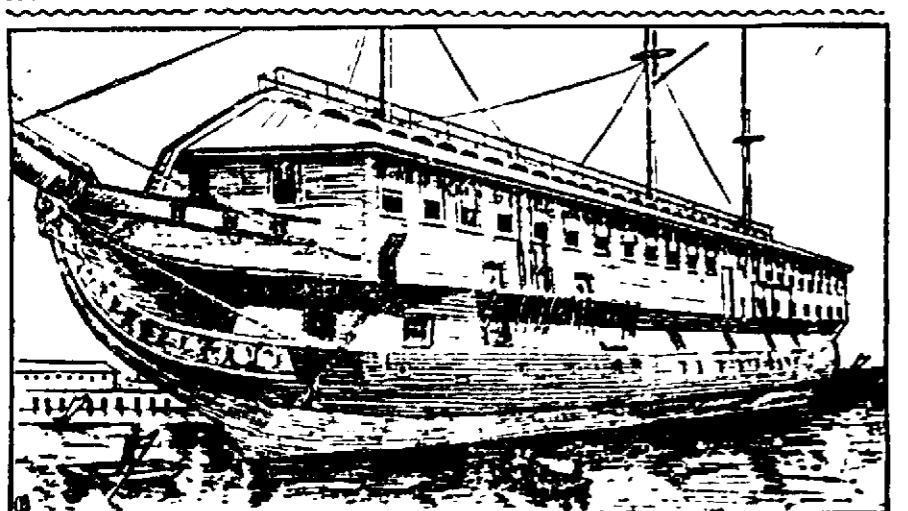

"Or a great trial," said the Plump Lady. "I am not surprised that a man with foolish hair like yours should decide to marry when he should be getting quotations from undertakers. What do you want, some kitchenish young thing of seventeen?"

"Not exactly," replied the man. "Frying size may be all right for some men, but I think I would prefer a woman near my own age—you for instance, though of course you are not a good housewife, and I want a woman who will make a home for me, and will make me comfortable in my old age. I am not nearly so close to the grave as you think."

"But what put the marrying idea into your head?"

"Well, I have been reading the bargains in the want column of the Newark Advocate. Really the things offered for sale there at such low prices surprise me. And the trouble is that an unmarried man has no use for so many of them. Now, if I were married I could use the cook stoves, the baby carriages, the rugs and pictures that are offered at such low prices."

"You might advertise for a lot in a cemetery," said the woman. "I have no doubt you could find a bargain, as they say every body reads the Advocate's want columns."

MADE PEWTER KEY

And Liberated Prisoners Arrested for Robbery, Did a Handsome Female Accomplice.

Editor Advocate:—In speaking of the old Doty House in a former communication, brings to my mind an exciting incident that transpired there between 1839 and 1851, when it was called the American House, and run by Smith & Moody, two prominent and very big hearted citizens of Newark.

At the time referred to, four or five gentlemen and one lady, all very finely dressed, came in on the packet. I believe, one afternoon, and put up at the American, and their baggage was all piled up in a wide hall, the main entrance to the hotel (now occupied by the Forsythe barber shop), and for some reason or other it was not taken up to the guests rooms that evening, but was left in the hall for the night. Some person, or persons, during the night, entered the place and carried all the trunks over to the Davidson corner, broke them open and abstracted, as it was supposed at the time, all the valuables they contained. I was at this time clerking for W. R. Lyon, grocer, and boarding in his family, who lived in the two story frame residence that stood in the same lot where the Smith grocery now is. When I got up in the morning to go and open the store I went across the street, and what a sight met my gaze. There were trunks of all kinds lying around broken open, and the contents scattered all over the side walk in every direction, and some of the articles made a holy show. The owners of the trunks put in a claim for the loss of several hundred dollars each, and remained at the hotel for some time in order to prosecute their suit. Messrs. Smith & Moody in the meantime had gotten a tip from some one that the culprits were the guilty parties to the robbery, and they had them all arrested and put in jail, with the exception of the woman, who claimed to be the wife of one of the men who said his name was Jefferson. Mrs. Jefferson was allowed to visit the jail and see the prisoners nearly every day, and during these visits she took an impression of the cell lock and made a key of pewter, with an old wooden handle, and liberated the whole gang. They were never heard of afterwards. I saw this key and tried it in the lock, and it turned the bolt just as easily as the original key made by a relative of mine, named Siles of Lancaster, O. The woman was never tried for the offense, and what became of her I do not remember.

ANOTHER USE OF THE BRIDGE.

Editor Advocate:—There seems to be a question as for what purpose the bridge was originally built across the alley connectin the Doty house with the building on the opposite side. I may be able to give you some information as to its origin. The hall across the alley was the headquarters of the American, or Know Nothing party, as it was then called. In order to secure a secret entrance the bridge was built. Members of the order could pass through the hall and enter the hall by this secret passage. In this hall all the reports were received from the different local lodges of the townships. The county conventions of the party were held in this hall. Many old Whigs and Democrats with the writer of this, in those days passed through this bridge to the hall during the exciting and interesting campaign of that time. I was known the week previous to the election as to who would be elected. We had the votes. The hall was no doubt used for other purposes as referred to by Mr. Sites. I remember of hearing of the disappearance of the two men referred to by Mr. Sites. My brother, C. W. Montgomery, at that time did business on the south side of the square.

COMPLAINT FILED

By Sharon Management Against the Schedule Adopted Thursday—New Cash Ricks.

Sharon, Pa., March 11.—Manager Frank Yoho and E. S. Clepper of the "Three-S" baseball club have forwarded to President Norton of the O. & P. league a letter of protest against the schedule as adopted last Thursday in Akron. The absence of the local club is the basis of the objection. A revision of the schedule is asked in the letter from the local club officials. New Castle, it is understood, has taken the same stand as Sharon.

IVOR WAGNER

Has Bought Release from Columbus, and May Go East to Play This Season.

Ivor Wagner, well remembered by local fans when he played second base for Newark a couple of years ago, yesterday bought his absolute release from the Columbus A. A. club. Ivor plunked down a cool \$1,000 for his freedom. He is a flinger and has been held in reserve by the Columbus management for a couple of seasons. He was afraid that he would be farmed out to "bush" league again this year and wanted the privilege of going where he desired. It seems that he had an antipathy toward the Wilkesbarre, Pa. club, where he played last year, and didn't wish to run any chances of being sent there again. The action caused quite a stir among the base ball fraternity of the Capital City.

PITCHER LINKE

Held by Columbus May Play in Newark—Senators Have Too Many Twinklers.

Columbus, O., March 14.—Pitcher Fred Linke, signed last fall with the Senators, will probably be sent to the Newark club of the O. & P. league without a trial with Columbus. Columbus already has a big bunch of pitchers, and it is imperative that some of the youngsters be sent to the arm. It is understood that Linke will receive a big salary at Newark. He is a Columbus boy.

Masquerade tonight at Palace Rink. PITTSBURGH HALL, CLUB OFF FOR HOT SPRINGS.

Last Monday evening the Pittsburg baseball club started for Hot Springs where the players will be drilled and put in condition for what promises to be the most interesting championship struggle in the history of the National league. The sporting editor of the Pittsburg Dispatch, Charles E. Power, whose interesting reports from the training camp last spring were admittedly the brightest and most entertaining ever published, as usual accompanied the Pirates and will keep the readers of that journal fully informed as to the movements of the players. Mr. Power is a recognized baseball authority and is well qualified to pass judgment on the young players to be tried by the Pittsburg club, as well as to keep the readers of the Dispatch advised as to the form displayed by the old members of the team. Before entering upon newspaper work he was prominent as a player and manager, served two seasons as a National league umpire and later was for five years resident of the Inter-State league.

With Mr. Power as its sporting editor the Pittsburg dispatch is the paper that every lover of baseball should read. Leave an order with your newsdealer now. You will enjoy the daily letters from Hot Springs, and you will at all times get the best sporting news published.

THE KING OF BLOOD PURIFIERS.

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT CURES DISEASE." It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin

Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.

SKETCH OF LIFE OF J. E. BRADFIELD

An Extensive Farmer Who Died in Kansas and Who Was Well Known Here.

The Coshocton Times contains the following account, or the life and death of James E. Bradfield, who was well known throughout the eastern part of Licking county:

James E. Bradfield was born in Coshocton county, Ohio, January 30, 1842, and died in the University hospital, in Kansas City, Mo., March 5, 1906.

His boyhood days were spent on his father's farm amid the rugged hills of his native state and his early education consisted of such instruction as was afforded by the district school of the neighborhood.

At the age of 19 he answered his country's call to arms and served until the close of the war in the 122d Regiment Ohio Volunteer Infantry. He was in the hard fought battles of Sportsylvania Court House, Cold Harbor and the Wilderness. He followed Sherman on his famous march to the sea, and passed in the grand review at Washington, and was honorably discharged, having been advanced to the rank of second lieutenant of his company.

After the war, realizing that his education was incomplete, he attended the Ohio Wesleyan university at Delaware, Ohio, for two years.

On November 8th, 1876, he married Alice E. Montgomery, daughter of Henry A. Montgomery, now of Newark, Ohio, and to this union five children were born. Two died in infancy and were buried in Ohio. The wife and three children, Harvey, Louis and Hattie, survive him.

In the fall of 1884 Mr. Bradfield turned his face to the west. He was then engaged in the stock business in Ohio and sought for a wider field of opportunity. Going to Kansas he located in land about ten miles north-west of Madison, in Lyon county. He thoroughly believed in the future of this country and transferring to it his faith and enthusiasm he became a loyal son of the state of his adoption.

MOTHER GRAY'S SWEET POWDERS FOR CHILDREN. A Certain Cure for Feverishness, Constipation, Headache, Stomach Troubles, Teething Disorders, and all Infant Complaints. Sold by Druggists and Dealers. 25 CENTS. Address: MOTHER GRAY'S, 101 N. 3rd St., New York City. A. S. CLEVELAND, La. Key, N. Y.

Mr. Bradfield was a born stockman. His first venture in business as a young man was sheep feeding, and from that time until his busy life was ended he was actively engaged in the live stock business and became well and favorably known among stockmen, all the way from the plains of Texas to Chicago.

James E. Bradfield was a man among men. With a splendid physique and a military bearing which became a fixed habit as a result of his long service in the army his appearance was commanding. Added to this a happy, jovial disposition and the ability to meet and mix with men, made him universally admired and won him friends wherever he went.

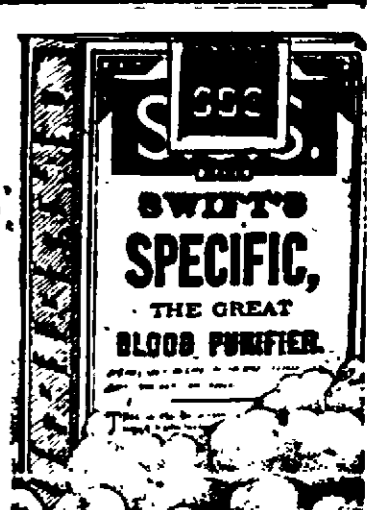

He was built on a large plan, physically, mentally and spiritually. Life to him was too short to be spent in nursing animosities or registering wrongs. Uniting with the Christian church in the days of his young manhood, his religion was not something that he put on as a garment but it became a part of himself, entering into every fibre of his being and it was a religion of Faith, of Hope, of Good Cheer. He borrowed no trouble from the morrow, quickly buried the disappointments of yesterday and was ever ready to grapple with the problem of the present with a innocent, hopeful spirit.

When he realized that a serious operation was necessary to save his life, and that even then the result would be uncertain, his courage never failed him. To his son he said just before submitting to the surgeon's knife, "My boy, don't you worry about me, I've got my nerve with me, and I'm going to come out of this all right." That was characteristic of the man. His nerve was always with him. We call it nerve in the popular language of the day, but it was the same spirit that had the Palms of old to say, "The Lord is my Shepherd, I shall not want. He is my refuge and my fortress, in Him will I trust. He is the strength of my life, of whom shall I be afraid?"

He always lived on a large scale, in a reasonable position on this world's goods, but James E. Bradfield leaves to his children a richer heritage than money and lands of stocks and bonds, the heritage of a good name, an unspilled reputation, a character above reproach, that should ever inspire them to noble living.

An affectionate father, a tender husband who never ceased to be a lover, a loyal citizen who took the world as he found it and left it a little brighter by reason of his having lived in it, he lovingly commended his many form to the sun kissed soil of the land he loved and his brave spirit to the God who gave it.

SWIFT'S SPECIFIC, THE GREAT BLOOD PURIFIER.

Gentlemen:—S. S. S. is used as a family medicine in our home. I myself have taken and always found it what it is claimed to be. It thoroughly cleanses the system of impurities, increases the appetite, improves the digestion, and builds up the general health. I have given it to my children with fine results. It promptly restores the appetite and clears the skin of all eruptions. It is a very fine blood tonic and has my hearty endorsement. 124 S. 9th St., Lebanon, Pa. P. H. THOMPSON.

DENISON FACULTY ANTICIPATED RULES

Adopted by Conference of Ohio Colleges Held at Columbus Last Week.

The members of the Denison faculty had the right idea regarding the new rules for the Ohio colleges, this fact being shown in the resolutions which were adopted by the faculty on the day before the meeting at Columbus when the "Big Twelve" conference rules were adopted to govern Ohio athletics. The rules adopted at the meeting on March 6 were as follows:

1. That no student shall be allowed to represent Denison in inter-collegiate athletics who has not been a resident of the school for six months.

2. Voted that inter-collegiate football be discontinued at Denison until such changes in the rules are made that makes it acceptable to the faculty.

3. That our representative to the conference to be held at Columbus on March 1, 1906, be instructed to use his influence in favor of a rule which will confine inter-collegiate athletics to college men.

It will be noticed that the faculty anticipated the mind of the conference and the rules adopted by the faculty did not contradict the conference rules adopted the next day. Denison has always stood for clean athletics and there has been less complaints about the eligibility of her players than those of any other school in the state. There is every indication that Denison's football eleven for next fall will be one of the best yet turned out.

GIRL IMPALED ON PICKET FENCE

AFTER PLUNGING FROM TOP OF A SIX STORY BUILDING.

She Suffered Terrible Injuries in an Attempt to Commit Suicide, While Despondent.

New York, March 14.—Leaping from the top of a six-story apartment house at No. 108 Hopkins street, Williamsburg, an unidentified girl about 20 years old made a spectacular attempt to end her life Tuesday afternoon, and is doing in St. Catherine's hospital.

She is suffering from a fractured skull and frightful internal injuries, as the result of having been impaled on a picket fence after making the plunge.

No clue to her identity other than a card containing the name of Minnie Berkowitz, No. 22 Monroe street, Manhattan, has been found by the police. Until a moment before she climbed the stairs leading to the roof and then jumped to the street, no one could be found who remembers having ever before seen her in Williamsburg.

From mutterings, the physicians gathered that she had attempted to kill herself while suffering from despondency. Several times she cried piteously for her mother, and it was evident that she was suffering great mental anguish.

A few minutes prior to the girl's plunge she was observed standing at the corner of Delmonico's place and Hopkins street, which is directly in front of the apartment house. Adjoining the latter building is a factory, and from the windows the workers noticed her glancing to right and left. Then she climbed the stairway to the roof of the apartment house.

Standing directly in front of her was a little girl at play, and as the young woman appeared the child ran over to greet her. She brushed by the child and running to the railing surrounding the top of the building scrambled over it to the edge of the roof.

Then throwing her hands above her head as though about to make a dive she leaped forward and her form shot down.

Several women in the factory fainting as the body shot through the space separating the two buildings.

SECOND LECTURE

On Civic Improvement Delivered by Prof. Zeublin at Taylor Hall Tuesday Evening.

Prof. Zeublin's second lecture of the series of three being delivered in this city, on the subject of Civic Improvement, was given at Taylor Hall last evening before a large audience.

The Professor's first lecture, delivered here on Tuesday evening, February 27, dealt principally with the schools of our cities, and their influence upon the future of the city. Last evening's lecture was of a highly instructive nature, in which the speaker dwelt upon the subject of the railway and highway approaches to our principal cities with striking and accurate illustrations of his subject. He pointed out the many advantages in the way of railroad approaches, and the impression of a perfectly designed entrance to a city. In his reference to this matter, the speaker complimented the city of Columbus on its advantages in this respect.

Toward the latter part of his lecture Professor Zeublin called attention to the necessity of good sewerage systems and the need of careful investigations as to the source of the water supply of the city of today. He illustrated some of the very great faults and deficiencies of a number of our foremost cities, in this respect. New York, Philadelphia and Pittsburgh were used principally as examples.

Professor Zeublin's next and closing lecture will be given on Tuesday, March 27, upon the subject, "The Twentieth Century City," in which he will give some suggestions which may be found applicable to this city.

MINER'S CASES IN SUPREME COURT

Men Accused of Murder of Idaho's Governor Will Take Case Up to Highest Tribunal.

Boise, Idaho, March 14.—The cases of Moyer, Haywood and Pettibone, officers of the Western Federation of Miners, who were denied a habeas corpus writ by the supreme court of Idaho, will be taken to the United States supreme court. The bill of exceptions prepared by counsel for the accused men was presented to the full branch of the state supreme court and signed, thus permitting the appeal to the federal court. The men have been removed from the penitentiary and placed in the city jail.

Socialists Protest.

New York, March 14.—A mass meeting at Grand Central palace by the Socialist Labor party was productive of an audience which filled the hall. The meeting was in protest against the imprisonment of certain members of the Federation of Miners in Colorado and Idaho in connection with the murder of ex-Governor Steunenberg of Idaho. John C. Chase, ex-mayor of Haverhill, Mass., was the first speaker. He protested against what he termed the "railroading" of Moyer, Haywood, St. John and Pettibone and said similar mass meetings would be called.

OIL INQUIRY.

Standard Official Reprimanded By Commissioner Cockrell.

Kansas City, Mo., March 14.—Francis M. Cockrell of the interstate commerce commission severely reprimanded G. W. Mayer, Kansas City manager of the Standard Oil company, during the investigation into the alleged methods of railroads and the Standard Oil company in discriminating against independent oil men hereabouts. The lawyers for the commission and the lawyers for the independent oil producers had been trying hard to get from Mayer an admission that there was any connection between the Standard company, the Union Tank Line company, the Republic Oil company, the Waters Pierce Oil company and other companies. To all questions Mr. Mayer answered: "I do not know."
